# Fused Glass, Stained Glass and Mosaics

This brochure gives you an idea of the pieces that I have made and what I can make

Art glass and mosaics are available in many colours, textures, transparent and opaque. Items can be made to your taste and palette if the pieces in this brochure do not fulfil this.

This is a living document and will be added to as time goes by. I am constantly creating new designs and am open to further suggestions. If I have sold an item in this brochure that you particularly like I can make you another one.

The prices are held separately at the back of the brochure and range from £5 to £120.

My name is Jane and I have been making things out of stained glass for a couple of years.

I have a workshop where I can create beautiful or messy things as I wish.

I can take up to 3 guests to work at my large centre table. I have a good supply of coloured glass for both copper foil techniques and fusing. I have a small glass kiln which can fuse glass items. As it takes 24 hours to complete I will send on anything made in a workshop.
